K DIVYA

Computer Science (AI & ML) Undergraduate | Aspiring Software Developer | Full-Stack Web Developer

Bengaluru, India | kdivyagovind@gmail.com | +91 9353940889 | linkedin.com/in/k-divya-b35239384 | github.com/kdivyagovind-spec

SUMMARY

B.Tech Computer Science & Engineering (AI & ML) undergraduate at REVA University (9.6+ CGPA) with a strong foundation in programming, data structures and web development. Built full-stack web applications with React, JavaScript and Supabase, contributed to a hackathon team project, and developed a graphics editor in C. IBM SkillsBuild certified in Python for data science. Seeking an internship or entry-level role in software development or AI/ML.

EDUCATION

B.Tech — Computer Science & Engineering (AI & ML) Sept 2025 – Aug 2029
REVA University, Bengaluru | **CGPA: 9.6+**

Pre-University (11th & 12th) — PCMC June 2023 – April 2025
BPSC PU College, Ballari | **CGPA: 9.3+** | 545 / 600 in Second Year PUC Board Examination

TECHNICAL SKILLS

Languages:	C, Java, Python
Web Development:	HTML, CSS, JavaScript, React
Databases & Backend:	MySQL, Supabase
AI / ML:	NumPy, Pandas, Scikit-learn, Python for Data Science & Visualization
Tools & Platforms:	Git, GitHub, VS Code, Vercel
Core Concepts:	Data Structures, Problem Solving, Graphics Algorithms, Responsive Web Design

PROJECTS

FITLOG — Fitness & Workout Planner Full-Stack Web Application
Tech: React, JavaScript, CSS, Supabase | github.com/kdivyagovind-spec/FITLOG

- Built a fitness planner with an exercise library, workout builder for personalized routines, and workout history of completed sessions.
- Added BMI and BMR calculators; integrated Supabase for data storage behind a React frontend.

IPL Ticket Booking Full-Stack Web Application
Tech: React, JavaScript, CSS, Supabase | github.com/kdivyagovind-spec/IPL-Ticket-Booking

- Developed an application for IPL match discovery and ticket booking with an interactive React interface.
- Connected the frontend to a Supabase database to support match data and booking functionality.

Car Repair Booking System Hackathon · Team Project
Tech: React, JavaScript, Supabase

- Contributed to a team-built web app for car repair booking; owned the Service Center and Repair Tracking modules.

WayCraft — Travel Planning Website Web Development Project
Tech: HTML, CSS, JavaScript

- Designed a travel planning site with destination exploration, itinerary planning, budget estimation and plan comparison.

2D Graphics Editor C Programming Project
Tech: C, Data Structures, 2D Graphics | github.com/kdivyagovind-spec/ACP_mini_proj

- Developed a menu-driven console editor in C on a 2D character-array canvas to create, modify, move and remove shapes, using Bresenham's line algorithm.

Personal Portfolio Website Personal Project
Tech: HTML, CSS, JavaScript, GSAP

- Built a responsive, theme-switchable portfolio with filterable projects, command-palette search, a built-in assistant and a GitHub activity dashboard.

CERTIFICATIONS & ACHIEVEMENTS

- **Ignite India 5.0 — Entrepreneurship Program, Wadhwani Foundation:** 42 hours of coursework on ideation, business modelling and financial planning (Dec 2025).
- **IBM SkillsBuild — Python & Data Science:** Python for Data Science, Data Analysis with Python, Data Visualization with Python.
- **GeeksforGeeks Coding Round, AI RENA 2.0 (REVA University):** participated in a competitive coding event.
- **Academic Merit Award:** recognized for academic performance in pre-university education.
